Daniel de Souza Neris

FULL STACK DEVELOPER

Profile

Full-stack developer with 6+ years of experience delivering scalable, user-focused solutions using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in TypeScript, RESTful APIs, and blockchain development with Solidity, I have built enterprise-level applications, decentralized platforms, and financial service solutions that enhance user engagement, security, and operational efficiency. Adept at designing robust systems, optimizing workflows, and integrating CI/CD pipelines, I thrive in fast-paced environments where innovation and collaboration drive impactful results.

Employment History

Head Of Technology, Zuvia, São Paulo

SEPTEMBER 2022 — PRESENT

- Joined Zuvia from its inception, contributing to all aspects of IT infrastructure and product development.
